THE GREAT FAILURE.

Its Effect on the Atlantic Seaboard.

What the Eastern Press Say of It.

Report of a Loss of Six Millions in Stock Operations—The Loss in New York Light—$3,000,000 Con. V. Silver in Wall Street—The New York Agents do not hold themselves Liable—The Oriental of London asks a Guaranty before Honoring the Letters of Credit.

NEW YORK Aug 27—The *Financial Chronicle* says there is not much change apparent from the Pacific coast trouble In the hands of the Central Pacific the first mortgage bonds are ded to 91, and the bid for Land grant 93½ per cent. There was a close intimacy between Mr Ralston and the Bank of California and Messrs Huntington and Stanford of the Central Pacific road but nothing is yet known as to how far the latter was concerned in the ill extension of the bank It would be well perhaps for buyers of bonds to hold off from newly introduced land grants by the road until more is known of the Pacific coast complications There is a large amount of joint account or partnership business in merchandise done between this market and San Francisco which for the time may be inconvenienced by the curtailment of banking facilities in San Francisco But nothing serious so far as we are advised is likely to come of this trouble The former president of the California bank is Mr Mills a wealthy man and who is believed to be one of the trustees They are liable and must say so that no loss to the public is likely to occur It is stated as probable that bills of exchange will not exceed £200 000 In regard to the speculation of Ralston and his party in California a story is current that their recent losses in silver mining stock and other adventures amount to the enormous sum of $6,000,000. It is not believed that other banking house on the Pacific coast will be seriously affected aside from the additional suspension already noted Foreign exchange is unaffected The amount of bills of the Bank of California undorsed in this market being less than fifty thousand pounds probably the most of these bills have been accepted by the Oriental Bank of London so that the loss here will be very light A number of bills bearing the endorsement of the Bank of California have been sold in this market but they are good because of the high standing of the drawers Respecting the reported transactions with the federal government and the purchase of silver, we hear an emphatic denial The government makes its purchases direct, from the Consolidated Virginia Mining Co and never makes advances until the thing is purchased and actually in hand The sum of $3 000 000 recently purchased was obtained in this way and is now in the assay office in Wall street

The report is current here that the losses of Ralston and his clique in California mining stock and other ventures will reach $6,000,000

NEW YORK Aug 27—Private dispatches from prominent gentlemen in San Francisco say matters look better so far as the best interests of the city and state are concerned

The concurrent testimony of bankers and financiers here is that no injurious effects are likely to follow in the East from the suspension of the Bank of California

The Chicago Press Cries, "I told you so"

CHICAGO Aug 28—The *Times* commenting upon the suspension of the Bank of California says The suspension of the Bank of California is a Godsend for the Roaring Bill Allen and William Kelley shinplaster swindle lunatics It was a hard money establishment doing business on a large scale It will serve the purposes of the bottomless shinplaster swindle illusionists all the same whether the pretense was true or false The Bank of California, though pretentiously a banking house based on hard pan was one of the most tremendously inflated gambling shops that ever existed in America The owners and managers of it were reckless and generally lucky speculators but not bankers they were men of much spread and big diamond shirt pins men like Jay Cooke who squandered millions in building grand oriental palaces and preposterously big hotels, who lavished on equipages and entertainments and gilded splurge the revenues of eastern princes who stood ready to put moneys in unlimited amounts into any and every *damphool* speculation that advertised a brilliant pyrotechnic programme As a single instance of the reckless readiness of the head of that concern to squander money may be mentioned his purchase at a big price in hard money of a watch factory formerly situated near the city which the owners had found to be an elephant that nobody else could be persuaded to take off their hands. The Bank of California was the grandest, brightest shiniest, goldenest most pretentious inflated hollow and unsubstantial representative of false principles even of shinplaster principles in banking that perhaps ever existed in this country It is utterly false to say that it was conducted on a gold basis for it was conducted on a gambling basis, and was managed upon the same theory exactly that is so vehemently championed by the bottomless shinplaster swindle fools on this side of the mountains. It was a monstrous over inflated bubble of debt and credit The greatest wonder is that it did not explode before Fortunately its explosion does not affect the situation of affairs in the great central region of the continent nor is it likely that it will seriously involve any important interest on the eastern frontier To California the explosion of that grand gilded fraud is a severe blow but its evil effects are sure to be compensated by more endurable good effects

The *Tribune* says of the suspension that the failure of this bank is another the latest and a costly verification of the rule that no bank can engage in speculation or in any other business than that of strict and legitimate banking without certain failure.

Flood and O'Brien not to Blame for the Failure.

NEW YORK Aug 28—A gentleman who seemed thoroughly informed regarding financial business in California stated that the Flood and O Brien party though distinct from the clique of the bank of California had in no way joined in an attempt to compel its suspension but on the contrary for several months ever since the rumored embarrassment of the corporation published last spring had done everything in their power to sustain the tottering institution To this end the incorporators of the bank of Nevada had received a proposition from the directors of the bank of California to purchase their good will but an investigation of the books made it evident that this could not be done except at great loss on the terms proposed In general terms the Flood and O Brien party thought they had gained the supremacy in the great Nevada mines to the exclusion of the bank of California but did not care to see the latter fall to the ground on account of the damaging effect it would have not only upon their own interests but throughout the coast

Laidlaw, of Laidlaw & Co. the New York agents of the bank of California, states that the first information any one in his office had upon the subject of the suspension was contained in the morning papers Since then up to a late hour yesterday they had received no additional information to that which has already been published Mr Laidlaw says all bills drawn by them had been endorsed by them as agents of the bank of California and consequently they were not individually involved

Effect of the Failures in Philadelphia.

PHILADELPHIA Aug 28—The California and Baltimore suspensions have little if any effect on this market.

The Effect in London.

NEW YORK Aug 28—A London dispatch says that the president of the Oriental Bank of London agents for the Bank of California states that the failure will in no way affect his institution To prevent loss and annoyance if possible the Oriental Bank is endeavoring to arrange by cable with trustees of the Bank of California for a guarantee so they can honor drafts of travelers when presented. When news of the failure of the Bank of California first reached London it was feared by some that the result would be most disastrous but as yet it has had no effect on money or values On stock exchange in London this morning the general markets were rather weaker but there was no very great change in American railway securities, that market for them being quiet

LONDON Aug 28—The morning *Standard* in its financial column says circular notes of the Bank of California are somewhat largely held by travelers but may be paid.

Further from New York in Relation to the Failure.

NEW YORK Aug 28—The *Evening Post* furnishes the following in advance of publication Wall street markets are all quiet to day and stocks are higher The advices from San Francisco contain nothing startling and all are to the effect that affairs are mending The latest dispatch in which we place implicit confidence is to leading banking houses here from their correspondents there It was dated at 5 yesterday and received this morning It is Panic over confidence returning coin scarce but transfer from New York will probably be returned The transfers referred to are those made yesterday through sub-treasury bankers putting gold into the sub treasury here and on telegraphic notification taking it out of the San Francisco sub treasury The impression prevails that the San Francisco Stock Exchange will be opened and that there has been no run on banks in the interior The estimate of liabilities and assets of the Bank of California which has been sent on here are that the former amount to about $14 000 000 and the latter to $ 000 000 or $ 000 000 Whether they are liable beyond the amount of their stock for debts of the bank we are unable to ascertain beyond a doubt It makes an important difference to the depositors and creditors of the bank as if they are liable the creditors will get dollar for dollar one of the stockholders being reputed to have property to the amount of $ 0 000 000

Still More from New York about the Failure.

NEW YORK Aug 28—Financial writers in the morning papers almost entirely ignore the California commotion seemingly believing that the collapse of a bank or two there cannot materially affect business away from the Pacific There is some demand for sterling which has been sold as cheap as $4 85 net to the pound sterling drawn on the London correspondents of one of the San Francisco banks and proceeds transferred by telegraph

A published communication here to day confirms the story sent early this morning, that it is an error to say that the Bank of Nevada caused the failure of the Bank of California by locking up gold &c as the Bank of Nevada is not yet in operation Its manager Louis McLane arrived at San Francisco from Baltimore with his family only one week before the failure and could scarcely have begun to put matters in shape for opening business on or soon after September 1st.

Troubles on the Rio Grande

WASHINGTON Aug — —Information has been received from a prominent officer on Rio Grande to the effect that cattle stealing and murder of peaceable American citizens are still perpetrated by Mexican marauders and in all probability they will continue in spite of the forces we can send there unless we can break up the band of thieves on this side of the river and as far in the interior of Mexico as may be found necessary

Order to Sell Ottman's Property Denied

Counsel for the government applied to Judge Wylie for an order to sell the property of Wm H Ottman, on the suit to recover the amount alleged to have been stolen by him from the treasury in connection with Halleck and Brown but the judge to-day informed them he could see no authority under the statute for such order at this time

Frauds in U S Marshals' Offices.

CHICAGO Aug 27—A Washington special says the attorney general is about concluding his investigation into the affairs of the Southern marshals and will soon publish the result of his researches He says he is surprised at finding so much more than expected at the outset. The states most prolific in frauds are Arkansas and Texas Investigation into the account of Marshal Douglas, son of Stephen A Douglas in North Carolina shows that there is no cause for the charges made against him last winter One of the results of the investigation has been made public to day and that is in the removal of Jas Bozz Iarl assistant district attorney for the district of Arkansas. Mr Pierrepont also attempted to remove another assistant district attorney to day but found the highway barred by a special enactment. Fisher's young hopeful Charles Fisher who recently released Schneider the burglar from jail and who has long stood in with criminal defendants was the victim intended When Pierrepont went to order the removal he made the singular discovery that congress some years ago had by special law placed the office of assistant attorney for the district wholly within the control of the district attorney When this was discovered Pierrepont addressed a letter to Mr Fisher asking by what authority he had appointed his son as assistant To this no reply has been received

Location of a New Mint.

CHICAGO Aug 29—A Washington special says Dr Linderman director of the mint returns here about Sept 15th There is much interest in his return as he has been gathering most interesting statistics as to our mineral wealth in the west, and carefully canvassing various locations for the new mint. From present indications it appears that the western mint controversy has assumed a complicated form and its location will not be secured through the representations of any one delegation but by combinations between the west and east It is therefore of importance to know the plan at present agitated in the east which may serve western delegations as a means to them of gaining the new mint Elijah Ward member of the forty fourth congress from New York is making a great demand on the mint bureau for statistics In order to back up a demand for a coining office in connection with the New York assay office rather than be obliged to send bullion to Philadelphia to be coined It is shown that New York furnishes full three fourths of the material for all gold coined at Philadelphia mint The New Yorkers claim that the coining office should be nearer the base of supplies to save cost of expressage which now is about $10 000 a year If congress establishes a coinage office in New York it would take away the main value of the Philadelphia mint and leave only subsidiary coin to be made there Of course Philadelphia will resist and the elements in the fight hope to unite with the powerful delegations For instance New York with Chicago for location of the mint at Chicago If the latter works with New York against Philadelphia and Philadelphia may unite with St. Louis A gentleman well informed on mint subjects says No matter what Linderman recommends the new mint location will be decided by congressional combinations

Affairs in San Francisco—Feeling Improved.

SAN FRANCISCO Aug 28—The trustees of the Bank of California adjourned this evening after a protracted session, to meet Monday and attend the funeral of Ralston in a body They will resume session Tuesday Nothing whatever is known concerning their deliberations Inquiry develops the fact that as yet the various manufacturing enterprises in the city in which Ralston is interested show no signs of weakness.

Coin is being transferred during the day from the U S treasury, and though no loans can yet be obtained money is easier Real estate dealers say the effect on that branch of business will be rather beneficial than otherwise Prices have been maintained

The general impression since the partially completed inquest on Ralston is opposed to the suicide theory

There appears to be but little excitement on California street all the banks doing the usual business The Bank of California is draped in mourning and the directors are sitting with closed doors supposed to be making up a statement of the bank's affairs

The funeral of Ralston is postponed until Monday owing to the prostration of his brother, A J Ralston at Virginia City, and his consequent inability to get here sooner The services will be from Calvary church at 11 A M

Flags all over town and from shipping in the harbor are at half mast

The feeling in the mercantile community this morning is very confident It is believed that next Monday collection day, will pass without failures A strong disposition is manifested to help each other

The inquest is now being held on the body of Ralston Evidence just commenced The belief is very general this morning that his death was not suicidal It is not thought that his death will complicate the bank affairs at all, but will probably delay the statement somewhat, owing to his intimate knowledge of the affairs of the bank

Inquest on the Body of Mr. Ralston.

SAN FRANCISCO, Aug 28—The jurors on the Ralston inquest are, J R. Garniss, C L Weller, H F. Williams, A A Cohen R F Morrow J R Keene, W H L Barnes and J C L Wadsworth

Joseph Dunking, proprietor of the Neptune bath house testified Ralston came to take a bath at 3 30 P M He usually came early in the morning My son in law served him did not see him enter the water I had no conversation with him, two young men went in with him Shortly one ran in and said something was the matter with that man They, with my son-in-law, went out in a boat and watched for Ralston to appear at the piles but saw nothing of him He was perspiring freely when he came to the bath house My son in law checked him but he said he would dry himself and take a shower before going in

Clarence Richards son in law of the last witness testified Ralston was smiling and cheerful when he came to the bath house waited on him, took charge of his clothes, and warned him against going in when heated He said he would dry himself and take a shower About 15 minutes after he went in the young men told me something was wrong with him I pushed out in a boat and met another boat with Ralston's body Ralston was in the habit of swimming some distance when he bathed did not see him in the water

Thomas C Bee assayer at Selby's smelting works testified that the watchman on the wharf told him the man was drowning The body was 200 or 300 feet from the wharf, in the water face down the head appeared under water, got Clark engineer of the steamer *Bullion*, lying near to recover the body, he brought him ashore, did not see him breathe used means of restoration saw no signs of life, sent for a doctor, Dr Newmark came

Michael J Clark engineer of the steamer *Bullion*, testified Saw the man in the water squirming as if in a fit he acted unnaturally, was 200 or 300 feet distant went in a boat and got him in, thought he was alive when I reached him, found he would live before reaching shore laid him on his stomach, pulled for shore quick as possible noticed no signs of life when I got him ashore when I first saw him in the water he was struggling and making for shore

Dr Newmark swore that when he arrived he found the body on the sand, apparently lifeless could detect no beating of the pulse or heart, kept up artificial respiration for an hour the appearance of the body was that of a man who had died from apoplexy—face livid eyes glassy, pupils dilated a sudden plunge when overheated would be apt to produce apoplexy

Dr Mucan corroborated the testimony of the preceding witness

One of the jurors here said If we do not know what that man died of, now we never shall know

The inquest adjourned until 1 P M Tuesday

The autopsy was made to day on the body of Ralston but the coroner at present declines to make the result public It will be given to the jury on Tuesday

In Memoriam.

SAN FRANCISCO Aug 28—The Pacific Stock Exchange this afternoon adopted resolutions deploring the death of Ralston as a faithful friend valuable citizen champion of the city and state and extending the sympathy of the board to the family resolving to attend the funeral in a body

The San Francisco Stock Exchange appointed a committee to wait on Mrs Ralston and tender the sympathy of the board, and resolved to attend the funeral in a body

Trustees of the Bank of California in Session

SAN FRANCISCO Aug 28—It is impossible at present to obtain any information concerning the proceedings of the meeting of the trustees of the Bank of California They are still in secret session and positively refuse to admit any one or give out any hint as to the nature of their deliberations

The Gold Bank and Trust Co Borrow a Million.

The trustees of the National Gold Bank and Trust Co this afternoon authorized the president and cashier to borrow $1 000 000 coin on real estate and securities The bank is in excellent condition If it were to go into liquidation it could pay stockholders a handsome premium after paying depositors in full

Confidence Restored, and the Excitement Dies Away.

SAN FRANCISCO, Aug 29—The city to day resumed its wonted quiet. The excitement of the last few days has died away and a general feeling of confidence seems to have followed In banking circles no further concern is apparently felt. The secretary of the Merchants' Exchange bank in an interview to-day, states that the bank will resume in the morning without doubt Transfers from the U S treasury and coin collected from local sources have placed the institution in a condition to go on as usual and no run is anticipated to-morrow beyond what may be expected in the usual course of business The only other suspended bank—the National Gold Bank and Trust Co,—report favorable progress but will not open for several days yet To morrow is collection day but it is confidently believed that it will pass without suspensions A large proportion of the mercantile community are in a condition to satisfy all demands and a general disposition is evinced to render assistance and extension to those who need it In the city churches to-day the attendance is unusually large drawn by memorial sermons delivered in many of them on the death of Mr Ralston The general tenor of the discourses was eulogistic on the popular, able and generous character of the deceased, with due discrimination in regard to the errors of his course

The funeral to-morrow will undoubtedly be most imposing A great number of civic and military societies, with other public and corporative bodies have signified their intention of attending the obsequies and a large concourse of citizens will unite in paying the last honors to the deceased

MONDAY MORNING, AUGUST 30, 1875.

THE FINANCIAL TROUBLES.

For some days past the subject most prominent on our streets, and probably in all business centers on this coast, has been the suspension of the Bank of California and its probable effect upon other financial and mercantile establishments. The interest attaching to the suspension has not been confined entirely to the Pacific coast either, as will be seen from the space devoted to it in our eastern and European dispatches, but the effect it may have had there is light, and will soon cease to be felt. While we would not endorse the harsh things that are said by some of the papers on the other side of the mountains, it will be well for business men on this side, when the smoke has cleared away, and it is fully known how many and who are the killed and wounded, to carefully consider and lay to heart the lessons taught by the catastrophe of the hour. For from such a disaster may be drawn conclusions which every man of business in the land should heed. The fact that a large diversion of capital from the ordinary legitimate business in which a man may be engaged to another and entirely speculative purpose is unsafe, is one of which men were not ignorant before, and which will now be more firmly impressed on their minds. If A has ten thousand dollars, and his mercantile establishment needs eight thousand of it, he cannot safely put the remaining two thousand where he must either lose it or draw on his legitimate business. If B is a banker he cannot divert his money and time to speculations in wild cat mining stocks without most seriously endangering his own business and perpetrating a great wrong upon those with whom he has business relations, and we opine that men of small means, who have suffered by this last collapse, will scrutinize more closely the actual foundation on which those stand into whose keeping they propose to put their money. The dispatches say it is probable that "collection day" will be got through with without serious trouble or any failures.

The fact that our state is hardly affected to the extent of a dollar by the crash is certainly a subject for congratulation as well as an indication of the thoroughly sound business principles on which commercial affairs in Oregon are conducted. The few men who reside in San Francisco but who have interests here and are occasionally in our market, through their agents, are understood to have been generally patrons of other banks the business of which was of a more strictly mercantile character. So Portland may well be glad that she has had so little interest in the numerous, stupendous and glittering, but often uncertain, enterprises which have led many men in the metropolis of the Pacific to their financial doom.

WHY STAND YE IDLE?

In all the older civilized countries of the world the past decade has been one of "strikes" and "lockouts" on the most extensive scale, and the deplorable condition of things continues, to the retarding of the wheels of progress and the actual suffering of thousands of people whose dependence for daily bread is the reward of their daily labor. In Lynn, Mass., a short time ago, there were 15,000 people idle, because the proprietors of the boot and shoe factories there had proposed a reduction of wages. The stimulation given that industry by the war advanced prices in correspondence with the increased premium on gold and the depreciation in currency, but as the premium on gold fell, manufacturers found it necessary to reduce wages or lose money. Strikes followed. As the shrinkage in the value of gold goes on, this condition in affairs will recur, and the same consequences follow. At Fall River, in the same state, with only 48,000 inhabitants, 15,000 were recently idle from similar causes, and by reason of the decline of prices of cotton goods to the figures ruling before the war and to an over stock. The proprietors of the mills claimed that they were not making anything by running at the old figures, and had less reason to resume work than the operatives, whose families were suffering, and a compromise was effected, but by it it was estimated that the strikers' loss was $215,000 in the aggregate.

In England, Scotland and Wales the same interests are in even a worse condition, through somewhat similar causes. We see it stated that in Dundee, 31 mills and 12,000 operatives have been idle since the 24th of July. In Ashton-under-Lyn, 50 mills and 8,000 employes are unemployed. In Oldham, 160 mills and 30,000 operatives are idle. In fact, pretty much the same state of affairs prevails in most of the manufacturing districts in England, and also in Scotland and Wales. The amount of suffering caused by this state of things will be very great, and the effect on the prices of some American products, as well as on the demand for them, will be very sensibly felt.

Then the inquiry comes home with great weight, what is to be the future of these operatives if the declining markets and lessened demand, induced by competition, shall debar them from earning a livelihood in manufacturing establishments? In many places in the Old World they are helpless, and hopelessly cut off from remunerative employment. Their own industrial papers are filled with accounts of want and suffering. Projects for emigration are started, but the workmen and workwomen are without the means to pay their passage to markets where their labor is in better demand. In the meantime, pauperism is increasing, and that, too, among able-bodied men and women who are ready and anxious to work, if employment could be obtained. Here is a broad field for philanthropic enterprise. In Australia, Canada and the United States, there is room enough, and employment at remunerative wages, for these starving millions. Here in the United States there is a free farm, to be had for the cost of surveying, for each head of a family, or young man, who is willing to occupy and improve it; on which, in a year or two, they could place themselves beyond pinching necessity, and by industry and frugality, a few years more would make them independent.

THE TURKISH REVOLT.

Our cablegrams indicate a good deal of perturbation in several parts of the old world. The war cloud in Europe growing out of the Herzegovinian revolt, at first no bigger than a man's hand, shows no signs of passing away. The province of Servia, which was the latest to join the revolting factions, is becoming one of the most troublesome, and soon it appears that the entire brood of dependencies which the Sultan appears to have thought existed only to be enslaved and taxed, will be enlisted under the banner of revolt. The other European powers are looking on with a good deal of interest. The question now is, what will Russia do about it, and Germany, and Austria, and indeed the whole jealous continent? Several of the greater powers are looked upon as ready to take a hand in it whenever the inevitable moment arrives at which Turkey must give up the ghost and be divided among the more stable European states. The situation is unquestionably a serious one. But a few days, or at most weeks, will indicate more clearly the real magnitude of the apprehended danger.

Cowan, who is assistant secretary of the interior, has written a long letter in reply to other long letters written by Mr. Wm. Welsh, who lays certain grave charges at the door of Secretary Delano. Mr. Cowan says that Mr. Welsh has written letters before, and made other grave charges against other people, and when called on for the proof has failed to produce it; but notwithstanding all this, the country seems hardly satisfied, to judge from the tone of the press, that either Delano or Cowan possess all the cardinal virtues.

Sterling, Ahrens & Co., of Baltimore, are financiers. They ran a large sugar refinery as agents, and the concern appears to have gone the way of many other establishments recently. An estimate of its assets and liabilities includes in the former over $800,000 due from Sterling, Ahrens & Co, who have also failed, and the creditors of the refinery will hardly be able to see the skill of such financiering.

They are having a political campaign down in Pennsylvania. "The election of the radical ticket," says the Pittsburg *Post*, "is the road to the bankruptcy courts and the almshouses." These are unmistakable signs. The canvass is hot and heavy.

The St. Paul *Press* says Tammany has purged itself of John Morrissey, or John Morrissey of Tammany. It is hard to tell which has got rid of the greater abomination. It should be added, however, that it is all done in the interest of reform.

Ordinance No. 1672.

AN ORDINANCE AUTHORIZING THE CHIEF Engineer of the Fire Department to assume the control and management of the Fire Alarm Telegraph.

The City of Portland does ordain as follows:

Section 1. That the Fire Alarm Telegraph and the appurtenances thereto belonging shall be under the control and management of the Chief Engineer of the Fire Department, and it shall be his duty to keep the same in good running order, at all times, ready for service, unavoidable accidents excepted. He shall report from time to time, when necessary to the Common Council its condition, and make requisition for such supplies as may be required for its maintenance. He shall inspect the telegraph lines, gongs, station boxes, striking machinery, as often as may be necessary to keep them in good order.

In case of any accident or repair required to be made when extra labor shall be necessary he may employ the same, *provided*, in no instance the expense shall exceed the sum of twenty (20) dollars.

Section 2. He shall be the custodian of the keys of the Fire Alarm station boxes, and shall distribute them, in his discretion, to responsible citizens, taking their receipt therefor.

Section 3. For services rendered as required by section one (1), of this Ordinance, the Chief Engineer shall receive the sum of twenty-five (25) dollars per month, payable in the same manner as the salaries of other city officers are paid.

Passed the Common Council August 25, 1875.

NEW STEAMER "VICTOR."—Saturday morn
ing, at 8 o'clock, Capt. U. B. Scott launche
from the ways at the upper sawmill, the hul
of his new steamer, which has been in proce
of construction for some time. The new an
handsome craft glided gently down the ways
and took to the water as naturally as a duck
She has been christened the "Victor," and he
dimensions are: Length, 150 feet; beam 3
feet; hold, 4 feet. The Victor's carrying ca
pacity is about 300 tons. Speed and light
draught—two essential elements—were ex
pressly had in view in the construction of th
new boat. She will have ample power, and
possessed of a good model, the Victor will b
enabled to cleave a pathway through the wate
quite rapidly. When ready for service, she
calculated to draw only about one foot, an
will be able to bring down 100 tons fro
Salem at the lowest stage of water. Bot
boiler and machinery are new, having bee
made at Portsmouth, Ohio, expressly for th
Victor. The engines are 14 inch bore an
4 feet stroke, and the boiler is of ample dim
sions to generate all the steam required. The
were shipped for their destination about
days ago, and are doubtless on the way fro
San Francisco now. Three inch plank, wi
oaken knuckles, has been used on the botto
of the hull, which will enable the steamer
drag over the sand and gravel bars of th
Upper Willamette for a long time. Josep
Pacquet, the well-known contractor, is buil
ing the Victor, and when completed sh
promises to be one of the handsomest an
most effective boats on the upper river. With
six weeks the boat will be ready for service.

RUN OVER AND KILLED.—A highly-prize
dog was run over on Saturday by the evenin
train at a point along the East Portland trestl
work, opposite the base-ball grounds, and in
stantly killed. The animal had followed som
boys on the trestle from L street to the
grove, and was standing on the track when th
train shot round the curve. The boys jumpe
off, but the dog declined to do so, as it wa
some distance down to the ground. All effor
to induce the animal to leap for life failed, an
getting caught under the locomotive-driver
was cut almost in twain. Those who witness
the accident are disposed to censure the engi
neer, and characterize his action in the matte
as cruel and heartless. Certain it is that
made no effort to save the life of the animal b
giving the customary and required signals,
slacken the speed of the train. The engine
evinced a carelessness and total disregard
life (even that of a brute), which is deservin
of severe condemnation. The owner woul
not have lost the animal for a considerab
sum.

two other children, not over five years old, as
sisted in singing. Altogether considered it wa
a real musical treat, and heartily enjoyed b
all. Rev. Mr. Chattin delivered a short addre
when the service was partially over, which wa
instructive, and listened to with interest by th
attentive audience.

IMBEDDED IN SOLID ROCK.—Mr. Fred. Clar
while engaged in digging a cellar on his far
near Mount Tabor, about three miles fro
East Portland, last week, came across a
toad at a distance of seven feet below the su
face of the ground. For nearly that ent
distance Mr. Clark worked through what
known as limestone cement, which is almo
as solid as rock. It was with extreme dif
culty that he could dig through the near
impenetrable strata with the aid of a pick.
the depth mentioned, the toad was found i
bedded in a little space not larger than
hand, entirely cut off from the outer wor
It was alive and in a good state of preserv
tion, and when liberated from its living to
hopped off as lively as a cricket. When a
how the creature became encased in
earthen prison, we leave for the geologist a
naturalist to tell. The toad is on exhibiti
at Raffety's drug store, East Portland.

OSWEGO SMELTING WORKS.—We learn th
the smelting furnace at Oswego will be sh
down soon, to lay a new hearth, which is n
on the way. The present hearth, of St. Lou
fire brick, has not done the service expected
it, and is already burned out, although on
laid some two months since. The new hear
is to be of stone, and is expected to last eig
teen months. The new road to the Prosse
beds is finished, and the facilities for takin
ore to the furnace greatly improved and
cheapened thereby. At the ore beds the wor
of opening shafts is being pushed vigorousl
and the crude metal is being taken from s
openings in the face of the cliff. The vast she
at the furnace are filled with coal, and the en
of the ore dump is evidence of the intenti
of the company to carry on the production
pig iron in earnest.

PASSENGERS COMING.—The steamship Or
flamme sailed from San Francisco for Portlan
on Saturday, bringing hither the followin
passengers: Lieut. Gen. Phil. Sheridan, wi
and servant, Col. Sheridan and wife, Capt.
Kempff and family, S. Redlich and wife,
Reichloser, T. Maddock, Jr., Dr. C. McKe
J. Sanders, H. Barnberger, H. Brentfeld, Ma

pearance. Several days ago the owner starte
in pursuit, armed with a warrant. It is n
known what direction the would-be thi
took. A description of the man and anim
has been left with Chief Lappeus.

WHAT IS THE MATTER?—Of late there h
been considerable complaint about the failur
of letters and papers directed to Astoria reach
ing the persons to whom the same are a
dressed. We do not wish to charge the pos
master at Astoria with dereliction of offici
duty, nor to do him the least injustice. The
is negligence somewhere, which should not
allowed to pass unmentioned. Either th
postmasters are at fault, or the mail faciliti
are inadequate, in which event the public h
to suffer.

TEACHERS' INSTITUTE.—Extensive arrang
ments are being made for the coming sessi
of the state teachers' institute, which will me
at Salem on Wednesday. The Legislative hal
has been put in order, seats and desks arrang
and the room decorated. Mr. S. W. Kin
superintendent of Portland public schools a
chairman of the committee of arrangemen
estimates that there will be at least 200 teach
in attendance and predicts an unusual
interesting session.

CITY.

NEW STEAMER VICTOR —Saturday morning at 8 o clock Capt U B Scott launched from the ways at the upper sawmill, the hull of his new steamer which has been in process of construction for some time The new and handsome craft glided gently down the ways and took to the water as naturally as a duck She has been christened the Victor, and her dimensions are Length 150 feet beam 33 feet hold 4 feet The Victor's carrying capacity is about 300 tons Speed and light draught—two essential elements—were expressly had in view in the construction of the new boat She will have ample power and possessed of a good model the Victor will be enabled to cleave a pathway through the water quite rapidly When ready for service she is calculated to draw only about one foot and will be able to bring down 100 tons from Salem at the lowest stage of water Both boiler and machinery are new, having been made at Portsmouth Ohio expressly for the Victor The engines are 14 inch bore, and 4 feet stroke, and the boiler is of ample dimensions to generate all the steam required. They were shipped for their destination about 30 days ago and are doubtless on the way from San Francisco now Three inch plank, with oaken knuckles has been used on the bottom of the hull which will enable the steamer to drag over the sand and gravel bars of the Upper Willamette for a long time Joseph Pacquet the well known contractor, is building the Victor and when completed she promises to be one of the handsomest and most effective boats on the upper river Within six weeks the boat will be ready for service

RUN OVER AND KILLED —A highly prized dog was run over on Saturday by the evening train at a point along the East Portland trestle work opposite the base ball grounds and instantly killed The animal had followed some boys on the trestle from L street to the oak grove and was standing on the track when the train shot round the curve The boys jumped off but the dog declined to do so, as it was some distance down to the ground All efforts to induce the animal to leap for life failed and getting caught under the locomotive-driver he was cut almost in twain Those who witnessed the accident are disposed to censure the engineer and characterize his action in the matter as cruel and heartless Certain it is that he made no effort to save the life of the animal by giving the customary and required signals, or slacken the speed of the train The engineer evinced a carelessness and total disregard of life (even that of a brute) which is deserving of severe condemnation The owner would not have lost the animal for a considerable sum

SONG SERVICE —The song service held last evening at Good Templar Hall by Professor McGibeny and family was largely attended, every available seat being occupied The exercises consisted of vocal music rendered by Professor and Mrs McGibeny and family—five small children The music was very excellent, and met with hearty approbation by the audience. Notwithstanding the sacred character of the music rendered several of the selections were warmly applauded. Professor McGibeny presided at the organ and acted as conductor Mrs McGibeny at the piano the eldest son performed very skillfully on the violin as also did a little daughter A little daughter seven or eight years of age, performed on the viol while two other children not over five years old assisted in singing Altogether considered it was a real musical treat, and heartily enjoyed by all Rev Mr Chattin delivered a short address when the service was partially over, which was instructive and listened to with interest by the attentive audience

The new ferry boat Elia Ladd steamed off down the river yesterday

The Baptist church looks bright and clean with its fresh coat of paint

To-day the locks and canal at Oregon City will be opened to the public

The steamer Idaho is on the way to this port —with a cargo of freight only

After receiving sundry repairs, the steamer Carrie went down the river yesterday

Dr W H Watkins, we regret to state, is still confined to his house with illness

The custom house officials have removed to their new quarters Front and B streets

The steamer John L Stephens passed out to sea on Saturday morning about 6 o'clock

Studies will be resumed to day at St Michael s College and St Joseph s Parochial School

John C. Work, the attorney, formerly of this city, is farming in Antelope valley Wasco county

We understand that the steamer Ajax is in the dry dock at San Francisco undergoing extensive repairs

Board of equalization will convene to day at the court house to examine, officially the assessment roll

The machinery for the new sash and door factory of Baugher & Rhodes, in East Portland, is being set up

The barge Autocrat is now lying alongside the Wm H Besse receiving on board iron for the Wallula and Walla Walla railroad

During the fire alarm on Friday evening two men had their toes mashed by having one of the wheels of Protection Engine No 4 pass over them

Persons wishing copies of the WEEKLY OREGONIAN containing a full account of the Masonic excursion to Victoria, should apply early Price ten cents per copy

Messrs Penumbra Kelly, Wash Allen and Edward Long have been viewing out a road to intersect the Albina and Vancouver roads with one or two of the leading roads in the county on the east side

A man named James McKenzie residing in the vicinity of Berry s ferry sustained severe injuries in the region of the back a few days since while lifting a log

Mr Edward Hall, agent of the North British and Mercantile Fire Insurance Co has arranged for the payment of the insurance on the Brooklyn stove foundry

Those who witnessed the game of base ball which came off at East Portland on Saturday afternoon must be impressed with the idea that B B is dead in these parts

Master J W McKenzie, the modest, the bashful, and highly gifted, is with Madame Stevenson giving a series of popular concerts held every Wednesday afternoon, at Salt Lake City

At present there are only six inmates at the county poor house Four of these are invalids whose cases are regarded as hopeless The other two are afflicted with trifling ailments

The evening paper speaks of a skating match which is soon to come off at Oro Fino Theater between two champion skatists Will the same paper please inform the dear public where the contestants will do the skating

The elegant residence now being built for ex Senator Corbett on the block south of the new government building, between Fifth and Sixth streets has progressed so as one can get a pretty clear idea of its external architecture, and it will evidently be a grand mansion

The editor of an eight page weekly sheet (seven pages of which are patent outside) issued every Sunday, has much to say about the hull of the steamer Gov Grover He makes a singular mistake It is the head of the aforesaid editor which requires scraping, instead of the hull

THE TURF.

The race, it is said which recently came off at Nanaimo between H Saunders horse Jack Cade and Brown Bread belonging to Mr Aikenhead, of Nanaimo turned out an easy victory for the Victorian A great deal of money is said to have changed hands on this event

A race, free to all for a purse of $40 will take place at the Olympia fair park on next Saturday, September 4th, half mile heats two in three three to enter and two to start Four horses have already been entered—one from Seattle Joe Filley enters Queen John Pinnel Confidence Frank Smith, Nameless Chas Grainger Indian horse

From the Salem Statesman we learn that there is a strong probability that a citizens purse will be gotten up to be given to the winner of the best two in three two miles running race, to come off at the coming state fair A purse of $750, half entrance fee added, would bring together not only the best running studs of the coast but the largest congregation of people ever assembled in Oregon With such horses as Foster Osceola Tom Merry Trifle Nell Flaherty and many others that are way down the forties the race would be a lively one

OUT-DOOR SPORTS.

Had a good breeze favored the parties interested in the sailing race yesterday no doubt a lively contest would have resulted At the appointed time for starting it was clear that no boat could sail as there was a dead calm The boats remained at their quarters ready to enter at any moment but no wind came up and the race was declared off for the present

A practice game of base ball was played Saturday afternoon at the grounds in East Portland between the Arcadians and Pioneers The latter club challenged the former to play a match game which was promptly accepted On arriving at the grounds the Pioneers were found short two men when it was decided to substitute a practice for a match game Mr Joseph Buchtel was chosen umpire and the game was called The game resulted as follows

The members of the Congregational Society at Astoria are making preparations for the reception of their new called pastor Rev Frederick Craig of Missouri who expected to preach his farewell sermon to his present charge at Cahoka on last Sabbath the 22d inst and was to leave that city last week for Astoria

On Friday morning at 11 o clock a fire was discovered in the rear of a large 2 story building occupied below by the Brownsville M fg Co as a store and above as their tailor shop and owned by the old Eagle Woolen Mills Co When the alarm was given it was too late to save it so all hands were employed in preventing the fire from catching in the neighboring buildings and also in removing all the merchandise possible from the building store-room The entire amount of stock was about $8 000 of which only about $3 000 was recovered A can of giant powder was in the flames and strange to say there was no explosion it only melted like so much lard The wind was favorable or no doubt the entire town of North Brownsville would have been wrapt in flames The fire originated from a stove in the tailor shop

In reviewing the Columbia river salmon trade for the past season the Astorian says From the best information at hand we may estimate the yield at 225 000 to 235 000 cases in round numbers The season opened with anything but an encouraging outlook which prevented some from making any preparations for business whatever whilst others were deterred from operations beyond half their capacity to work At no time during the season were any of those short of fish on the contrary none were able to work up the fullest supply brought in daily The discouraging features of the business at the start have been traced to a few interested in speculations but it will never be able to occur again we think The season closes with a firm and ready market at good prices, for export, while the home market is comparatively without any supply Prices have been lower this year throughout the season than for 1874 Last year sales were based upon an average of about $6 per case or $1 45 to $1 50 per dozen 1 lb cans This year prices have ranged from $1 30 to $1 35 per dozen

Speaking of the approaching State Fair the Statesman says extensive preparations have been made and are still being made at the fair grounds for reception of the large number of exhibitors and visitors who will be in attendance The grove of scrub oaks near the gates has been enclosed with a railing, and the straggling stands which stood in that vicinity have all been removed The grand stand at the race track is being reroofed and a new one 190 feet long is to be built There are at present seven horses in training on the track The booths in which all kinds of trading are done, are now mostly consolidated in one block directly east of the pavilion They were yesterday forenoon sold at auction by S Friedman a large number of persons being present and the competition for eligible locations was very lively The highest price brought was for the stand at the race track which brought $150 The total amount received for the stands sold at auction yesterday footed up $1 749 and besides these two large stands had already been rented and the large restaurant has not yet been let The purchaser has the right to occupy his booth only one year and give up possession on the last night of the fair and will have to pay his regular license in addition The booths are all to be numbered

The Grand Lodge of Masons of Washington Territory holds its annual communication at Olympia on the fourth Wednesday of September the 22d prox

The Puyallup hop crop is reported to be in a flourishing condition Picking will commence early in September and some 300 Indians will assist in the operation

A lot of California barley was landed at Seattle last week from the bark Harvest Home Before the 1st of November there will probably be 50 000 bushels of barley grown on the Sound, shipped to San Francisco

An effort is on foot in Boise City, I T to organize under articles of incorporation an agricultural park association with a capital stock of $15 000 the object being to purchase lands fit up or build suitable buildings for agricultural fairs cattle shows, &c, and have a driving park for the trials of speed

The Talbot Coal Co says the Seattle Tribune have purchased the one half interest of Morrill & Morris in the steamers Wenat and barges Champion and Joe Morrill, paying for them $3 600 and taking entire possession of the property this morning Capt Dave Hill will go in command of the Weathercaster They owned the other half before

From Jun 1st to Aug 16th 1875 31 072 tons of Seattle coal are reported as imported into San Francisco This is 10 960 tons more than from Coos Bay and 3 700 tons less than from Vancouver Island If all the coal shipped from Seattle had gone to San Francisco however, it would have considerably exceeded the Vancouver island report

Mr Jones of Olympia late superintendent of the Seattle coal mines returned on Wednesday evening from a survey of the Rosenthal coal mines, near Chehalis station He speaks in terms of praise of said mines as to location working position quality and quantity of the coal. He says there are five parallel veins, and one of them is ten feet in thickness without any foreign substance in it

It is reported that rich gold silver and copper bearing quartz ledges have been discovered about fifteen miles from Malad City, in Idaho Territory Several lodes have been located, some of which are from ten to fifteen feet in width formed within wall rock of granite, slate porphyry and fire clay There is said to be plenty of wood and water in the vicinity of the mines Should a good mining camp start up there it will afford the farmers and stock raisers of Oneida county a much needed market for their products

In an article on farming lands the Olympia Courier says "It is the general opinion among farmers, and especially those who are not well acquainted with the soils of Washington Territory, west of the Cascade mountains that the low prairie lands, upon which grows an occasional Scotch pine shrub and which has a black soil of one to four inches deep under which is a whitish clayey subsoil, somewhat resembling putty is worthless except for pasture and that only to a limited extent A series of experiments tried by L G Abbott of this county upon a large tract of that kind of land, have proved to a certainty that it is second to none in the Territory for the growing of grains and grasses He first sowed grains and grass seed upon a piece of the land well prepared but it was too wet and cold moss soon took possession of the land and choked out the grain and grass He then tried under draining and summer fallowing and his efforts were crowned with success The white clayey subsoil when plowed up and exposed to the sun slakes crumbles to pieces and becomes very mellow The first year after being drained and fallowed it produced a fair crop of grain The next year grain was again sown upon it without any fertilizer and the crop was better than the first The third and fourth years furnished the same results the last crop being the best of all He has sown land with timothy seed and is well satisfied with the yield of grass The producing capacity of this kind of land is probably equal to the muck lands and its durability will rank with the river bottoms

ves a more full account; he
ost advanced this discovery
e la Veranderie. He went
from Fort La Reine to the Missouri. He met on the banks of this river the Mandans or White Beards, who had seven villages with fine stockades, strengthened by a ditch. Next to these were the Kinongewiniris or the Brochets in three villages, and toward the upper part of the river were three villages of the Mahantas. All along to the north of the Wabiek or Shell river were situated twenty-three villages of the Panis. To the southwest of this river, on the banks of the Ouemaraba, or LaGraisse, are the Hactanes or Snake tribe. They extend to the base of a chain of mountains which run north-northeast. South of this is the river Karoskiou, on Cerise pelee, which is supposed to flow to California.

He found, in the immense region watered by the Missouri, and in the vicinity, the Mahantas, the Owlinioek or Beaux Hommes, four villages; opposite the Brochets the Blackfeet, three villages of a hundred lodges each; opposite the Mandans are the Ospekknerenousques or Flatheads, four villages; opposite the Panis are the Arcs or Christineaux and Utasibaoutchactas en Assiniboel, three villages; following these the Makeseb or Little Foxes, two villages; the Privassa or Great Talkers, three villages; the Kakokoschena or Gens de la Pie, five villages; the Kiskipisounouini or the Garter tribe, seven villages.

Father Coquart, one of the companions of Verendrye, was consulted as to the probability of finding a pass in the Rocky mountains, through which they might, in canoes, reach the great lake of salt water, perhaps Puget's Sound.

The enterprise was at length confided to two experienced officers—Lamarque de Marin and Jacquez Legardeur de Saint Pierre. The former was assigned the way by the Missouri, and to the latter was given the more northern route; but Saint Pierre in some way excited the hostility of the Christineaux, who attempted to kill him, and burned Fort La Reine. His lieutenant, Boucher de Niverville, who had been sent to establish a post toward the source of the Saskatchewan, failed on account of sickness. Some of his men, however, pushed on to the Rocky mountains, and in 1753 established Fort Jonquiere.

Galissoniere was succeeded by Jonquiere in the governorship of Canada, who proved to be a grasping, peevish and very miserly person. For the sons of Verendrye he had no sympathy, and forming a clique to profit by their father's toils, he determined to send two expeditions toward the Pacific ocean, one by the Missouri and the other by the Saskatchewan.

In 1753 Saint Pierre was succeeded in the command of the posts of the west, by de la Corne, and sent to French creek in Pennsylvania. He had been but a few days there when he received a visit from Washington, just entering upon manhood, bearing a letter from Governor Dinwiddie of Virginia, complaining of the encroachments of the French.

Soon the clash of arms between France and England began, and Saint Pierre at the head of the Indian allies fell near Lake George, in September, 1755, in a battle with the English. After the seven years' war was concluded, by the treaty of Paris, the French relinquished all their posts in the northwest, and the work began by Verendrye was, in 1805, completed by Lewis and Clarke, and the Northern Pacific railway is fast approaching the passes of the Rocky mountains, through the valley of the Yellow Stone and from thence to the great land-locked bay of the ocean, Puget Sound.

The week which closed to-day has been one of unusual dullness for finance and trade, even in a month never remarkable for active movements. The exceptional occurrences which marked the close of the week had, of course, a depressing influence in commercial circles, and although this result was brought about more through sympathy than from any injury to business affairs in this state, it was nevertheless effectual in putting an almost complete check on transactions. Altogether the week has been an unprofitable one. A return of activity is anticipated with the beginning of the month. Assuring telegrams from San Francisco has restored confidence in business relations, and collection day will find money not perhaps as easy as could be wished, but sufficiently so to meet the bulk of the demand.

No fewer than five vessels are on their way from Liverpool with steel rails for the Vancouver Island railway—namely; Unanima, Longfellow, Beulah, Dovenby and Valparaiso. They will be due at Victoria during the next two months. They are consigned to Sproat & Co., and will probably come here seeking.

The clipper ship Orpheus, of 1,067 tons, is at San Francisco under charter to come to Seattle and load coal for that city.

The National Association of Canned Goods Packers have adopted a resolution of considerable importance. It is that their label—a pair of scales—shall be regarded as a guarantee that their goods are full weight, and of the quality represented as No. 1 or No. 2, and violations are to be punished by expulsion from the association.

Home Produce Market.

WHEAT—Nothing doing and no transactions expected until the commercial atmosphere clears. The old quotations remain, merely to indicate a price—namely, $1 80.

FLOUR—Supplies are generally light, although sufficient to accommodate demands, which are mainly from California and the Sound. A good market in San Francisco has stimulated exports in that direction. Prices remain at $6 ₱ bbl. for standard extras, $5 50 for good outside and country brands, and $5 for superfine.

OATS—Late advices indicate that the crop will not show any marked improvement on that of last year. The crop will not be so short, taking the larger acreage into consideration, but the yield per acre will be about the same. Exportations are light, and receipts are more than equal to the demand. The market may be quoted at 55c ₱ bushel sacked.

MILL FEED—There is no active demand now and with light receipts the trade is quite dull. We quote jobbing prices, $16@17 ₱ ton for bran, $22 50 @25 for shorts, and $25@30 for chops, middlings, etc. Oil meal, $33.

BARLEY—Receipts are light, with prices unchanged. Feed, $1 25; choice brewing, $1 40@1 45.

POTATOES—The new crop in full supply is now in the market and selling at 50@75 cents per bushel, according to variety.

ONIONS—Some large importations from California are at hand and our home crop is reported fair. We quote at $1 75@2 ₱ 100 lbs.

FRESH FRUIT—The market is filled with ripe fruits of all seasonable kinds and prices are moderate, but quotations depend altogether on quality and condition and the wants of buyers. The supply of peaches during the week has been large.

BEEF CATTLE—Quotations remain at 3@4c ₱ lb neat, and 1½@2¼ on foot.

BACON—The supply is not so large, and with a falling off in receipts prices are advancing, and quotations are now furnished at 12½@13c ₱ lb for sides, 15@16c for hams, and 8@9c for shoulders.

LARD—The supply is not excessive and quotations are firm at 15@16c per lb in kegs or tins.

BUTTER—In demand, the range being from 25@30c. In kegs we quote extra at 22@25c ₱ lb in jobbing lots.

EGGS—The market is dull, with the price down to 30c ₱ doz.

CHICKENS—Good chickens are in demand at $4 50@4 75 ₱ doz for full grown, and for spring from $2@3 50, according to size and quality.

MUTTON SHEEP—A light demand rules at from $2@2 75 ₱ head.

DRESSED HOGS—Trade dull at from 5½@6½c ₱ lb.

HIDES AND FURS—There is quite an active trade for the season, and we quote best selected hides at 15c ₱ lb; culls, ¼ off; green, 6c; elk, 1¼@10c ₱ lb; deer, 15@35c ₱ lb for dried, and 50@75c each, green; mink skins, $1 50 each; otter, $1@5 each; beaver, 75c@$1.

WOOL—Each outgoing steamer takes a supply to San Francisco. Receipts are not heavy and all that is offering finds a ready market. The quotations range from 14@21c for Eastern Oregon and 20@25 for Valley.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia and Mandrake with the Iodides of Potassium and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching, and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation for its intended purposes.*"

Buckingham's Dye,

FOR THE WHISKERS.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black at discretion. It is easily applied, being in one preparation, and quickly and effectually produces a permanent color which will neither rub nor wash off.

POND'S EXTRACT

"Hear, for I will speak of excellent things."

POND'S EXTRACT—The great **Vegetable Pain Destroyer.** Has been in use over **thirty years,** and for cleanliness and prompt curative virtues cannot be excelled.

CHILDREN. No family can afford to be without **Pond's Extract. Accidents, Bruises, Contusions, Cuts, Sprains,** are relieved almost instantly by external application. Promptly relieves pains of **Burns, Scalds, Excoriations, Chafings, Old Sores, Boils, Felons, Corns,** etc. Arrests inflammation, reduces swellings, stops bleeding, removes discoloration and heals rapidly.

FEMALE WEAKNESSES. It always relieves pain in the back and loins, fullness and pressing pain in the head, nausea, vertigo.

IN LEUCORRHŒA it has no equal. All kinds of **ulcerations** to which ladies are subject are promptly cured. Fuller details in book accompanying each bottle.

PILES—blind or bleeding—meet prompt relief and ready cure. No case, however chronic or obstinate, can long resist its regular use.

VARICOSE VEINS. It is the only sure cure.

KIDNEY DISEASES. It has no equal for permanent cure.

BLEEDING from any cause. For this it is a **specific.** It has saved hundreds of lives when all other remedies failed to arrest bleeding from **nose, stomach, lungs,** and elsewhere.

TOOTHACHE, Earache, Neuralgia and Rheumatism are all alike relieved, and often permanently cured.

PHYSICIANS of all schools who are acquainted with **Pond's Extract of Witch Hazel** recommend it in their practice. We have letters of commendation from hundreds of Physicians, many of whom order it for use in their own practice. In addition to the foregoing, they order its use for **Swellings** of all kinds, **Quinsy, Sore Throat, Inflamed Tonsils,** simple and chronic **Diarrhœa, Catarrh** (for which it is a *specific*), **Chilblains, Frosted Feet, Stings of Insects, Musquitoes,** etc., **Chapped Hands, Face,** and indeed all manner of skin diseases.

TOILET USE. Removes **Soreness, Roughness** and **Smarting;** heals **Cuts, Eruptions** and **Pimples.** It *revives, invigorates* and *refreshes,* while wonderfully improving the **Complexion.**

TO FARMERS—Pond's Extract. No Stock Breeder, no Livery Man can afford to be without it. It is used by all the leading Livery Stables, Street Railroads and first Horsemen in New York City. It has no equal for Sprains, Harness or Saddle Chafings, Stiffness, Scratches, Swellings, Cuts, Lacerations, Bleedings, Pneumonia, Colic, Diarrhœa, Chills, Colds, &c. Its range of action is wide, and the relief it affords is so prompt that it is invaluable in every Farm-yard as well as in every Farm-house. Let it be tried once, and you will never be without it.

CAUTION! Pond's Extract has been imitated. The genuine article has the words **Pond's Extract** blown in each bottle. It is prepared by the **only persons living** who ever knew how to prepare it properly. Refuse all other preparations of Witch Hazel. This is the only article used by Physicians, and in the hospitals of this country and Europe.

HISTORY and Uses of Pond's Extract, in pamphlet form, sent free on application to **POND'S EXTRACT COMPANY,** 98 Maiden Lane, New York.

MEDICAL.

To the Unfortunate!

NEW REMEDIES NEW REMEDIES!

DR. GIBBONS'

DISPENSARY,

623 Kearny St.,

Corner Commercial Street,

SAN FRANCISCO.

Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Rheumatism successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed practice at his Dispensary, 623 Kearney street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible, life-destroying maladies see that they are cared for and cured before it be too late. Send them immediately to DR. GIBBON, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate case, without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

Married Men.

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them, nor delay to obtain immediate relief.

DR. GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Cured at Home.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing Ten Dollars coin, in registered letter through the Postoffice or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union. All communications strictly confidential.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, San Francisco, Postoffice Box 1,957.

REMEMBER TO PUT BOX 1,957 ON THE LETTER. Consultations FREE.

☞Correspondents will please inform DR. GIBBON that they read his advertisement in the DAILY OREGONIAN. jy6d&p
